

## The IMPAC3T IP Tool-box and academy training

The IMPAC3T IP<sup>1</sup> has developed a 'scenario based' tool-box to support broader impact from the licensing of research outputs and other IP assets. The tool-box contains over 30 tools, grouped into three scenarios:

- **Classical Plus:** Builds upon conventional licensing models by integrating considerations of societal value, inclusivity, and a wider array of intangible assets.
- **Crisis:** Enables flexible and equitable access to technology in emergency situations, providing adaptable licensing frameworks for critical needs.
- **Co-Creation:** Streamlines the management and licensing of IP developed through collaborative efforts involving multiple actors and diverse objectives.

It also contains several cross-scenario digitally enabled tools.

The training includes:

### Introduction to the workshop

- Designed for 'users' who want to get to grips with one or more of the tool-kits
- April 17, 2026

### Phase 2: Training of trainers

- Remote workshops
- Focusing on taking 'user' graduates to the point where they can support others to adopt
- From August-October 2026 (TBD)

The agenda for Phase 1 is shown on the following page.

---

<sup>1</sup> A Coordination and Support Action, funded by the European Commission.

**Introduction to the IMPAC3T IP Tool-box**  
**A one day training workshops for 'users'**

9.00	Registration and networking coffee
9.30	Welcome and introductions - Icebreaker
10.00	Session 1: introduction to the IMPAC3IP Project and tool-box
10.30	Coffee/ tea break
11.00	Session 2: Introducing the 'Crisis' Tool-kit
11.45	Leg stretch
12.00	Session 3: Introducing the 'Co-creation' Tool-kit
13.00	Lunch
14.00	Session 4: Introducing the 'Classical Plus' Tool-kit: Digital Tools
14.45	Leg stretch
15.15	Session 5: Introducing the 'Classical Plus' Tool-kit: Non-digital tools
16.30	Summary of the days workshop and introduction to the 'next level' of IMPAC3T IP
17.00	End
